**RFQ NUMBER: M022 – 2020/21, FIRST AID LEVEL 3 TRAINING
27 MAY 2021**

Quotes are hereby requested for the first aid level 3 training as per the specification below:

1. Training content

Revision of Level 1 & 2 training – The vital components of Level 1 & Level 2 first aid are discussed. These revised topics include CPR, Choking, bleeding control, how to treat burns, scene safety, etc.;

Crush injuries and compartment syndrome – When a limb is crushed underneath a heavy object or in between tightly moving equipment a victim may end up with compartment syndrome, which must be treated carefully;

Multiple injury management – Candidates will be taught how to treat the multi trauma patient scenarios and incidents such as motor vehicle incidents, gas leaks, environmental or biological incidents etc which could occur regularly and at unexpected times;

Skin injuries – In the workplace employees needs to be aware of skin injuries such as irritants causing dermatitis, allergic reactions, and cancer, caused by cleaning products, oils, paints, cement etc.;

Behavioural emergencies – Behavioural or psychiatric emergencies is when a person's behaviour is so out of control that they could cause harm to themselves and others around them. Candidates need to be able to be able to treat these patients compassionately and try assist before they become a danger to everyone around;

Water accidents – Water accidents include drowning, diving accidents and decompression sickness. Different injuries have different treatment methods and the First Aid Level 3 delegate needs to be prepared to treat water accidents;

2. Number of people to be trained

- 10

3. Location

Training to be held on site, i.e. Municipal premises

4. Accreditation

LG Seta accreditation
