QUALITY CERTIFICATE

I, Zipho Mthethwa the Municipal Manager of Mthonjaneni Municipality, hereby certify that the Mid-year Performance Report for the period 1 July 2022 to 31 December 2022 has been prepared in accordance with Sections 72(1)(a) and 52(d) of the Local Government: Municipal Finance Management Act No. 56 of 2003 (MFMA) and regulations made under the Act and accordingly submit key performance indicators, development priorities and targets as determined in the 2022/2023 Service Delivery and Budget Implementation Plan (SDBIP).

Name: Mr ZS Mthethwa

Municipal Manager Mthonjaneni Municipality

23 January 2023

1. INTRODUCTION

This Mid-Term Performance Information was prepared using the 2022/2023 Service Delivery and Implementation Plan (SDBIP) that was approved by Council. It outlines the progress that the municipality has made for 6 months (July to December) of the financial year for each department and for the whole organisation.

The purpose of compiling this report is to monitor the performance of the Municipality, this monitoring will assist in detecting early warning signals for underperformance and allow necessary intervention to take place before the financial year end.

In terms of Section 72(1)(a) of the Local Government: Municipal Finance Management Act (MFMA), Act 56 of 2003 the Accounting Officer must by 25 January of each year assess the performance of the municipality during the first half of the financial year. A report on such an assessment must, in terms of Section 72(1)(b) of the MFMA, be submitted to the Mayor, the National treasury and the relevant Provincial Treasury. Once the Mayor has considered the report, it must be submitted to Council by 31 January in terms of Section 54(1)(f) of the MFMA.

The Mid-Year Performance Report and supporting tables of Mthonjaneni Municipality is prepared in accordance with MFMA Circular 13 and MFMA S72. The data in this report exemplifies the Municipality's Mid-Year Performance Report for the period 01 July to 31 December 2022.

2. SERVICE DELIVERY PERFORMANCE ANALYSIS

2.1. PERFORMANCE MANAGEMENT CYCLE

The performance management cycle is an integrated approach which focusses on improving performance planning, monitoring, measurement, review, reporting, and auditing and improvement. These processes run concurrent with the overall planning, budget, and reporting cycle.

The performance management cycle can be summarised as illustrated in the following diagram:

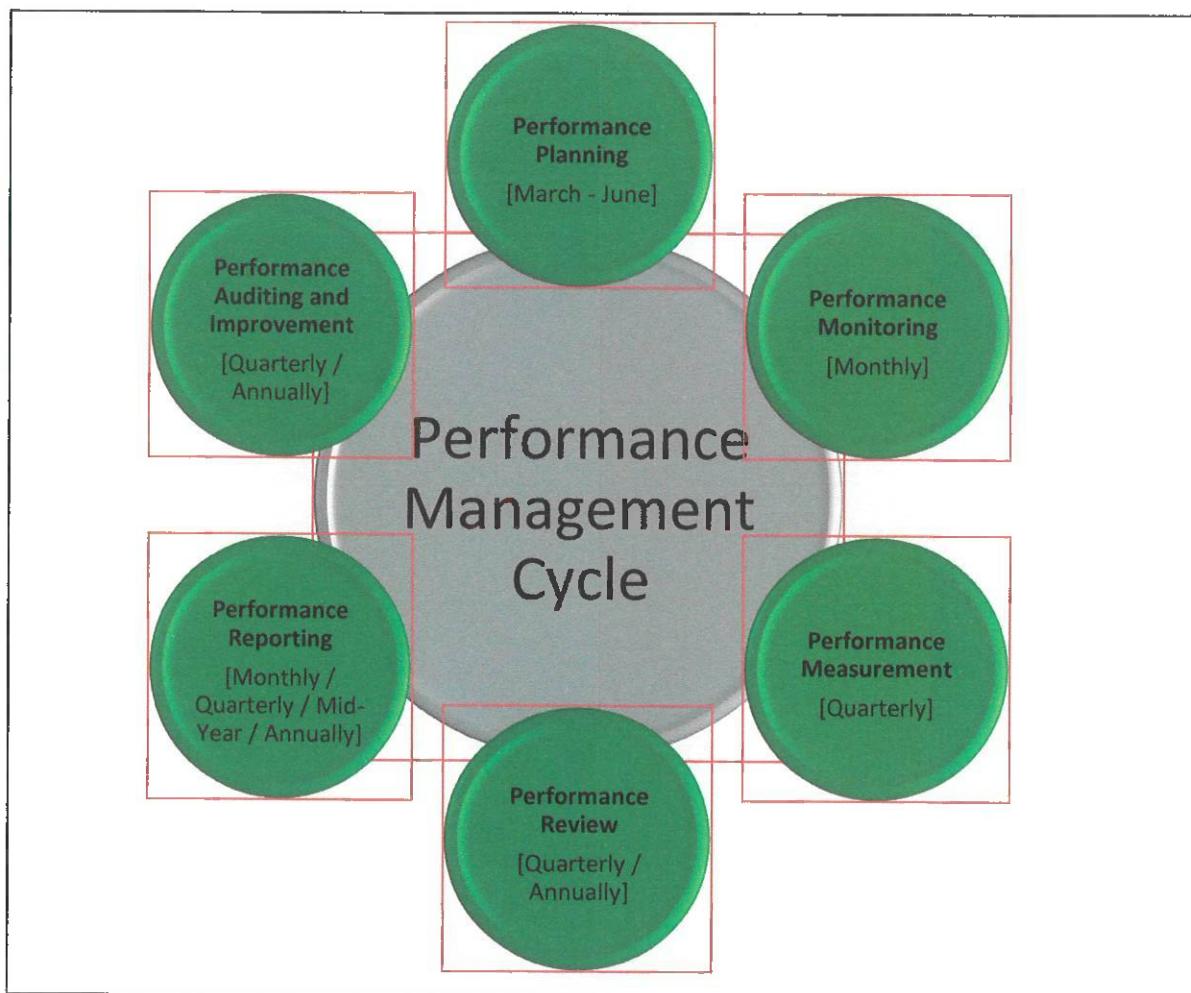

Figure 1 - Performance Management Cycle

2.2. PERFORMANCE MANAGEMENT POLICY

At local government level performance management is institutionalised through the legislative requirements on performance management. Chapter 6 of the Local Government: Municipal Systems Act, No. 32 of 2000 requires municipalities to establish a performance management system that is commensurate with its resources; best suited to its circumstances; and in line with the priorities,

objectives, indicators, and targets contained in its integrated development plan. It further requires that a culture of performance management must be created among its political structures, political office bearers and councillors and in its administration; and administer its affairs in an economical, effective, efficient, and accountable manner.

In addition, Regulation 17(1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that:

"A Municipality's performance management system entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the responsibilities of the different role players."

2.3. PERFORMANCE MANAGEMENT IMPLEMENTATION

Performance Management is a process which measures the implementation of the organisation's Integrated Development Plan (IDP). It serves as a management tool to plan, monitor, and measure and review performance indicators to ensure efficiency, effectiveness, and the impact of service delivery by the municipality. The 2022/2023 Amended Integrated Development Plan (IDP) was adopted by Council on **19th of May 2022**.

Performance is evaluated by means of a municipal scorecard the Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) at organisational level and through the Departmental SDBIP at directorate level.

The SDBIP is a plan that converts the IDP and Budget into measurable criteria on how, where and when the strategies, objectives and normal business processes of the Municipality will be implemented. It also allocates responsibilities to Directorates to deliver services in terms of the IDP and Budget.

The Service Delivery Budget & Implementation Plan was approved by the His Worship, The Mayor on the **7th of June 2022**.

2.4. PERFORMANCE MONITORING

The approved Service Delivery Budget and Implementation plan is monitored on an ongoing basis to determine whether performance targets have been met, exceeded, or not met. The IDP/PMS Unit sends the reminder to departments for quarterly reporting

Monitoring is a continuous process of measuring, assessing, analysing, and evaluating the performance of the organization and departments with regard to KPIs and targets. Mechanisms, systems, and process for monitoring should provide for reporting at least twice per annum to the Mthonjaneni Municipal Council and the community. It should enable detection of early indication of underperformance and provide for corrective measures/indicator

2.5. PROCESSES INVOLVED IN COMPILING THIS REPORT

This Mid-Term Performance Report was compiled based on the information submitted by the Municipal Departments. The Quarter 1 Performance Report and the Quarter 2 Performance Report was consolidated in determining the status of achievement for the Mid-Term Performance Report for the first 6 months of the 2022/2023 Financial Year.

The Mid-Term Performance Report scorecard is coded in colours green and red; **Green** indicates the targets that were achieved, and **Red** indicates the targets that were not achieved. The actual performance documented is the information that was submitted by the departments however in determining the status, the Actual Performance documented was compared against the Evidence that was provided, therefore the status documented is not solely based on the actual performance documented. The overall assessment of actual performance against targets set for Key Performance Indicators as documented in the SDBIP is illustrated in terms of the following assessment methodology:

KPI RESULT	CATEGORY
TARGET ACHIEVED	KPI Met
TARGET NOT ACHIEVED	KPI Not Met
N/A	Not Applicable
NOT DUE	KPI not due for reporting in the reporting term

3. MID-TERM PERFORMANCE REPORT SCORECARD

Good Governance	7	4	4	0	100
Cross Cutting	32	23	22	1	95.7%

Table 1: Performance Analysis Per KPA

7. PROPOSED MEASURES TO IMPROVE PERFORMANCE

- Departments to ensure that performance information is submitted on time to give enough time to PMS Unit to review and revert to the department.
- Departments to ensure that the information documented on the Performance Report has the evidence on the files to support it and no information should be in the report with no evidence available.
- Departments to prioritise responding to Gaps brought to their attention.
- The quality of evidence submitted to PMS be considered. (Credibility)
- SDBIP to be revised to ensure that operational targets are removed from the organizational SDBIP.

8. CONCLUSION

- The analysis made on this report are based on the performance information provided by the Departments. The report also outlines the progress the Municipality has made for the first six months of the financial year.
- The Achievement rate of 90% was determined after a thorough review of the performance information provided for Quarter 1 and Quarter 2
